Stochastic Processes and their Applications 34 (1990) 361-362
North-Holland

AUTHOR INDEX*

Volume 34

Adler, R.J., S. Cambanis and G. Samorodnitsky, On stable Markov processes (1) 1- 17
Biggins, J.D., The Central Limit Theorem for the supercritical branching random walk, and related results (2)255-274
Brandt, A., B. Lisek and O. Nerman, On stationary Markov chains and independent random variables (1) 19- 24
Cambanis, S., *see* R.J. Adler (1) 1- 17
DeBlassie, R.D., Explicit semimartingale representation of Brownian motion in a wedge (1) 67- 98
Elton, J.H., A multiplicative ergodic theorem for Lipschitz maps (1) 39- 47
Ferreira, I., The probability of survival for the biased voter model in a random environment (1) 25- 38
Frigessi, A. and M. Piccioni, Parameter estimation for two-dimensional Ising fields corrupted by noise (2)297-311
Harel, M. and M.L. Puri, Weak invariance of generalized U-statistics for nonstationary absolutely regular processes (2)341-360
Keener, R., Asymptotic expansions in multivariate renewal theory (1)137-153
Kipnis, C. and Ph. Robert, A dynamic storage process (1)155-169
Last, G., Some remarks on conditional distributions for point processes (1)121-135
Levental, S., Uniform CLT for Markov chains with a countable state space (2)245-253
Lisek, B., *see* A. Brandt (1) 19- 24
Nerman, O., *see* A. Brandt (1) 19- 24
Nualart, D., M. Sanz and M. Zakai, On the relations between increasing functions associated with two-parameter continuous martingales (1) 99-119
Orsingher, E., Probability law, flow function, maximum distribution of wave-governed random motions and their connections with Kirchoff's laws (1) 49- 66
Piccioni, M., *see* A. Frigessi (2)297-311
Pötzelberger, K., A characterization of random-coefficient AR(1) models (1)171-180
Puri, M.L., *see* M. Harel (2)341-360
Robert, Ph., *see* C. Kipnis (1)155-169
